

Lincoln County GIS Tax Parcel Map Database RFP Questions

From Applied Data Consultants - 7/5/2011

1. Regarding Section B in the Introduction, number 7:

Is there remote access to all scanned documents in the Register of Deeds office or will they have to be obtained on-site?

There is remote access to scanned documents from 1995 to present and all CSM's in the Register of Deeds office. Please use the following web address for more details.

<http://www.co.lincoln.wi.us/departments/services/?department=aa384fe82c0c&service=30f2f165ce68>

2. The county is currently using ArcSDE 9.3.1 and ArcGIS 9.3.1. Does the county know if/when they will be updating to version 10?

With the release of 10.1 scheduled for early next year (this is what we have been told), we have decided to skip 10 and wait for 10.1.
