01/07/1974 Wisconsin Department of Transportation states corner is a brass cap set in concrete. Shows 4 brass caps set in concrete as ties to the corner location. No other history of perpetuation was provided.

8/02/2018 I visited corner location and found a P.K. Nail near the centerline of the road at a snowmobile trail crossing. I also found three remaining ties, all incorrectly labeled as brass caps in concrete on previous tiesheet. Set a 7/8" rebar north of the corner location as both a tie and the property corner on West line of the Southwest Quarter at the intersection of the right of way. Area is currently being worked on to bury underground cables. Machinery has been working on both North and South side of roadway within right of way. Believe NE and SW ties may be at risk.

PLAN VIEW OF CORNER WITH TIES TO AT LEAST 4 WITNESS MONUMENTS. IF IN DISAGREEMENT WITH PREVIOUSLY ESTABLISHED CORNER, SHOW THE DISTANCES BETWEEN THE TWO CORNERS AND ALSO INDICATE THE TIES TO THE DISPUTED.
