SURVEY PARTY: KEITH WALKOWSKI / AUSTIN PELOT	
BASIS FOR MONUMENT LOCATION: (DESCRIBE METHOD OF SURVEY AND CORNER AUTHENTICATION)	LOCATION (Indicated 1991)
Used the "bottle caps" in the power poles as indicated on the record tie sheet dated April 28, 1978 to locate the corner position. Dug down and found the Stone with a drill hole approximately 1' below grade in the roadway. Set 4 new ties to perpetuate the corner location as shown below.	KEITH J. WALKOWSKI AS 2717 MOSINEE, WI

I Sheridan D. S. hwark, do hereby certify that on the 2nd day of March , 19 78 , I found evidence of the West one-quarter corner of Section 15 6 East Fourth, Principal Meridian, as described hereon; and that from this evidence I established a new monument and accessories as described hereon to perpetuate the original location of this corner.

O = Corner monument restored.

CERTIFIED LAND CORNER RESTORATION

Index No. 2 - 13

History of original corner establishment:

Date: March 1852

Surveyor: A.G. & F.S. Ellis

Monument: Wood post

Witnesses: 6" Birch S13°E, 52 links 8" Soft Maple S20°W, 30 links

Description of corner evidence found:

We found an irregular shaped stone monument approximately 9" in diameter with a drill hole in top. The stone was the same type as we've found in other areas in the Town of Scott. The stones were set in 1903 by Louis Kleinschmidt. His map is on record in the Register of Deeds office.

Description of monument and accessories I established to perpetuate the original location of this corner.

We set a 1 1/4" iron rod on the South side of the stone. We set the following witness monuments to the stone monument: Nail through bottle cap in power pole No. 301 14 bearing N59°E, 34.47'
Nail through bottle cap in power pole No. 15 bearing S48°E, 36.49'
3/4" x 30" solid iron rod set 2' Northeast of stop sign bearing S62°W, 28.60' 3/4" x 30" solid iron rod set 2' Southeast of telephone junction box bearing N57°W, 35.74 feet.

Dated at Merrill , Wis., this 28 th day of April , 19	18.
