Walkowski S-2717 searched for the corner and found a Survey Marker Nail from previous surveys of record at the centerline intersection of S.T.H. "64" and Poplar Lane. This location is also indicated on S.T.H. "64" right-of-way plat Project #T0393(1). He accepted this location as the best available evidence and set witness monuments to perpetuate the corner. 9/15/2014 - I visited the corner location prior to the resurfacing of Highway "64" and recovered the Survey Marker Nail of record. Also recovered all four (4) witness monuments from the previous corner restoration form. Distances checked well. Set four (4) Berntsen SSDR-130 witness monuments and returned after construction to set a Berntsen SNM-1 Nail at the corner location. CERTIFIED CORRECT: CHRISTOPHER L.
