Walkowski S-2717 searched for the South 1/4 corner and found a MAG nail on the center line of S.T.H. "64". Mag Nail fits distances from right-of-way plat per project #T0393(1) to adjoining corners. He held this location as the best available evidence for the corner and replaced the MAG Nail with an SMP Nail and tied out the 9/15/2014 - I visited the corner location prior to the resurfacing of Highway "64" and recovered the Survey Marker Nail of record. Also recovered all four (4) witness monuments from the previous corner restoration form. Distances checked well. Set four (4) Berntsen SSDR-130 witness monuments and returned after construction to set a Berntsen SNM-1 Nail at the corner location. CERTIFIED CORRECT: CHRISTOPHER L.
