U.S. PUBLIC LAND SURVEY MONUMENT RECORD

NOTE: This form is intended and designed to fulfill all requirements of Wisconsin Administrative Code, Chapter A-E 7 .08 U.S. Public Land Survey Monument Record (3)(a)(b)(c)(d)(e)(f)(g)(h)(i). An additional sheet may be added if necessary to conform with said requirements.

(a)Corner location: Township 34 North

Range 6 East

Town of Bradley

County of Lincoln

MATTHEW E. HOGLUND S-1910 TOMAHAWK

William William

(b)(f)(g)(h)Description of monument found at this comer and if it was accepted, state all evidence (material, testimonial, occupation, plats, records, other monuments) used as a basis for accepting. If not accepted or if nothing was found, state evidence used as a basis for establishing location. If reestablished through lost corner proportionate methods, indicate all monuments, distances and directions used to establish. Indicate type of monument found or set and sign post.

December 24, 1854-January 5, 1855 - Jackson Prentice set wood Section post with bearing trees: Spruce 18" N60°E, 70 links, Tamarack 8" S30°W, 167 links.

July 7, 1985 - U.S. Public Land Survey Monument Record by Lester Schmit, he found a 1-1/2" iron pipe for the comer, 16.3' North of the centerline of S.T.H. "86". Replaced pipe with Berntsen Monument - set witnesses: 6" Aspen, N73°E, 35.62'; 6" Tamarack, S33°E, 64.35'; 4" by 4" Wood Post, S03°E, 49.09', 7" Tamarack, S31°W, 85.69', 5/8" Iron Rod, S88°W, 19.02'.

April 10, 1991 - Record and Certification of U.S. Public Land Survey Control Station by WisDOT by Crew Chief R.B. Johnson - found a Berntsen Monument - set 5/8" by 24" rebars w/red caps for witnesses: N73°E, 78.72'; N83°W, 117.79; N87°W, 199.94; N89°W, 241.98'.

March-July, 2009 - Matthew E. Hoglund found base of broken Berntsen Monument approximately 1-1/2' deep in North ditch of S.T.H. "86". As S.T.H. "86" was reconstructed and moved South, all 1985 ties from Lester Schmit are gone. Also, recent grading and berming of the cranberry bogs to the North destroyed all 1991 ties by the DOT. Verified corner position by a retracement of maps: M319A, M177B, and M129A of Lincoln County Surveyors Records and an unfiled map by MSA Professional Services for Project No. 980509 dated 1/26/2004. Additional survey data shown on Certified Survey Map No. 2200. Reset new Berntsen Monument - set large rock mound all around monument to stabilize corner and set new witnesses as shown below.

(c)(d)(e) Plan view of corner with ties to at least 4 witness monuments. If in disagreement with previously established corner, show the distances between the two corners and also indicate the ties to the disputed corner.
