U. S. PUBLIC LAND SURVEY MONUMENT RECORD

INSTRUCTIONS:

This record shall show the location of the corner and shall include all of the following nine elements (a through i).

(a) Identify the corner by reference to the U.S. public land survey system.

O = Corner monument restored.

East & corner of Sec. 19, T. 35 N., R. 4 E., Lincoln County, Wi.

West & corner Sec. 20, T. 35 N., R. 4 E., Lincoln County, Wi.

T. 35 N., R. 4 E.

East 1/2 corner Sec. 19-35-4E Sheet 1 of 2

(b) Describe any record evidence, monument evidence, occupational evidence, testimonial evidence or any other material evidence you considered, and whether the monument was found or placed.

A 2" iron pipe was found at the corner location. This was left in place. Reportedly, this pipe was set in 1923. It was assumed that the found pipe is of the same type as found at the North of Sec. 19 and therefore is 48" long with a steel plate on the bottom. There is a steel plate on the top.

(c) In the plan view drawing below, provide reference ties to at least 4 witness monuments, or, if the location is within a municipality, to at least 2 witness monuments. (Witness monuments shall be made of concrete, natural stone, iron or other equally durable material.)

Describe witness monuments.

7" POPL AR Show a plan view drawing depicting the relevant monuments and reference ties which is sufficient in detail to enable accurate relocation of the corner monument if the corner monument is disturbed. (d) All witness monuments are l"x24" iron pipe. The witness pipe are. set 2' more or less, NE CORNER SEC. 19-35-4 2619.20 in front of blazed Indicate north. trees. See sketch for type of tree. A 8" POPLAR 43"E survey marker warning sign was nailed to the blazed tree. \$82°34'46"E 17.04 8" POPLAR 2634. \$ 0015

| (e) | Describe any material discrepancy between the location of the corner as restored or |
|-----|---|
| | by distance and direction. Show the discrepancy on the plan view drawing under (d) |
| | and (1) the corner as restored or reestablished and (2) to at least 2 of the |
| | monuments shown on the drawing in (d), above. |

(f) Was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

A found perpetuated location

(g&h) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?
