b) (f) (g) (h) Description of monument found at this corner and if it was accepted, state all evidence (material, testimonial, occupational, plats, records, other monuments) used as a basis for accepting. If not accepted or if nothing was found, state evidence used as basis for establishing location. If reestablished through lost corner proportionate methods, indicate all monuments, distances and directions used to establish. Original Gov't. Survey: July 1861 by Alfred Millard, set wood post for corner with bearings, spruce pine 6 N 61° E 5 links & yellow pine 18 S 50° W 15 links. During survey in 1977, I found no monument for the corner. The corner location, being in the intersection of Leather Avenue & Bridge Street, had been disturbed by utility construction. Replaced corner location by using distances from the plat of R. C. Thielman's Addition to the City of Tomahawk and placed a P.K. nail on the surface of the black topped street, for the corner directions used to establish.

c) (d) (e) Plan view of corner with ties to at least 4 witness monuments. If in disagreement with previously established corner, show the distances between the two corners and also indicate the ties to the

was determined by me or under my direction and control and that

this U.S. Public Land Survey Monument Record is correct and

complete to the best of my knowledge and belief.
