(b) (f) (g) (h) Description of monument found at this corner and if it was accepted, state all evidence (material, testimonial, occupational, plats, records, other monuments) used as a basis for accepting. If not accepted or if nothing was found, state evidence used as basis for establishing location. If re-established through lost corner proportionate methods, indicate all monuments, distances and directions used to establish. Indicate type of monument and sign post found or set.

NOTE: This is a perpetuation of a previous USPLS Monument Record by Dennis B. Roberts, RLS dated September 25, 2003 and filed in the office of the Oneida County Register of Deeds. A complete history of the corner can be found on the previous monument record. I accept the previous location as a true and faithful perpetuation or reestablishment of the original corner location and further perpetuate it as follows.

June 17, 2016: I found and accepted the record monument, a large spike in tree root. The existing accessories were found in substantial agreement with the record and were not remeasured as the sole purpose of this work is to report the coordinates of the corner point.

The coordinates shown were derived from two independent RTN observations of the corner point and are referenced to the WISCORS GNSS Network.

(c)(d)(e) Plan view of corner with ties to at least 4 witness monuments. If in disagreement with previously established corner, show the distances between the two corners and also indicate the ties to the disputed.
