

Lincoln County PLSS Control Viewer Help Documentation

Disclaimer:

When you first open the PLSS Control Viewer you will be prompted to read an introduction screen that outlines the basic purpose of the viewer and the data it is publishing. Click “Agree” to open the application.

Opening Page:

This is a snapshot of the opening screen. The main tools are located along the top right of the map. Other information such as zoom tools, a home button, location, full screen, and previous/next extent are located on the left side of the page near the top. The “Layer List” tool will be open automatically with the page, with all layers expanded.

Map Navigation Tools

Pink points represent the corners that are in need of remonumentation.

Blue points represent corners with available tie sheets. Tie sheets can be viewed by using the mouse to click a blue point, and then in the pop up selecting “More Info” next to “WEBADDRESS MR”.

Example of a corner pop-up. Select “More info” link to open Tie Sheet.

Tools Overview:

Basemap Background Gallery: Selecting this tool will open a window which displays the gallery of available orthophotography by year and other basemaps that can be displayed in conjunction with corner data.

Map Layers: This tool will open automatically with the website. It shows all of the map layers available on the website. Use it to turn layers on or off on the map.

Draw and Measure: Use this tool to measure distance and area, and draw lines and polygons on the map.

Print Map: This button will open a map printing tool enabling the user to print map documents in different sizes and layouts.

Bookmarks: This tool will open a list of stored bookmarks. Users can create additional bookmarks or delete existing ones.

Share: Clicking on this button will open a tool that will allow you to share your current web view and web environment with others.

Profile: This button will open a tool that allows you to draw a line that generates an elevation profile view.

Site Help: Selecting this tool gives you the link to this help document, as well as contact information for the Lincoln County Land Services Department.
