## U.S. PUBLIC LAND SURVEY MONUMENT RECORD

Note: This form is intended and designed to fulfill all requirements of Wisconsin Administrative Code, Chapter A-E 5.02, U.S. Public Land Survey Monument Record (3) (a) (b) (c) (d) (e) (f) (g) (h) (i). An additional sheet may be added if necessary to conform with said requirements.

(a) Corner location: Township 32 North

Range\_\_\_7\_\_East

Town Merrill

County \_\_\_\_\_Lincoln

Section 30

b) (f) (g) (h) Description of monument found at this corner and if it was accepted, state all evidence (material, testimonial, occupational, plats, records, other monuments) used as a basis for accepting. If not accepted or if nothing was found, state evidence used as basis for establishing location. If reestablished through lost corner proportionate methods, indicate all monuments, distances and directions used to establish.

I reset the North one quarter corner using information from a Survey map by Neil J. Lee, dated August 30, 1972, recorded in the County Surveyors Office. I was forced to set a P.K. masonary nail since the old roadway is concrete.

c) (d) (e) Plan view of corner with ties to at least 4 witness monuments. If in disagreement with previously established corner, show the distances between the two corners and also indicate the ties to the disputed corner.

N51°E, 81.45'
P.K. nail in Power Pole
no. 3207-19R8

NORTH STAR DRIVE

57

S46°E, 65.99'
1"x 30" solid round iron rod set 2' more or less north of a sign post.
